

For John Deere
630D, 635D, 640D,
645D & 936D

For MacDon D50,
D60, D65, FD70,
FD75, FD135,
FD140 & FD145,
and Case IH
2142, 2152 & 2162.

Combine World
makes pea
augers that
work as well
as factory, at a
price, *and with*
availability,
you'll prefer to
the ones from
your dealer.

Plus our
MacDon design
makes repairs
easier than
OEM.

**If you farm
bushy, heavy
crops, you
know how
much the
upper cross
auger, or pea
auger, on your
draper header
helps to wmove
your product
to your
feederhouse.**

PeaAugers

**For MacDon
& John Deere**

PeaAugers

Pick up at one of our locations, or we ship worldwide.

For MacDon & Case IH 35', 40', & 45'

For MacDon FD145, FD140,
FD135, FD75, D65, FD70, D60, &
D50, and Case IH 2142, 2152, &
2162

OUR MACDON DIFFERENCE

REPAIRABLE!

Factory cross
augers can fail due
to stress on the
centre drive. On
the OEM model,
that part is not
replaceable. With
ours, you can
replace one part,
not your whole
auger!

Our double-
u-joint design
also means better
flexing.

For John Deere 30', 35', 36', 40', & 45'

For John Deere 630D, 635D,
640D, 645D & 936D

*Simple, dependable design.
At a price you'll love.*

OUR FACILITY

We manufacture all
of our pea augers at
Elstow, Saskatchewan,
Canada, employing
professional welders &
fabricators.
