Sheri, Saskatoon Sask

"Greetings from Combine World!

Hey neighbours! It feels great to make my way back into your mailbox. Did you miss us as much as we missed you?! Winter seemed to drag on forever... like molasses... in the wintertime. But now that spring is finally peeking around the corner, it's exciting to share what's new around here.

First up—big news at the parts counter! We've added another fantastic lady to the team, and I'm thrilled to officially welcome **Melissa Legare Patzer** to our already stellar crew. Melissa joined us in January and has already shown she's a quick study with a great attitude and an awesome work ethic. As for Trenton... well, let's just say he's now severely outnumbered. It's 6:1 at the counter—or 8:1 if you include Morgan and me.

We've also added to our parts pulling team this year—big shout out to **Tanner Anderson**! Tanner comes to us with a solid background in both farming and fixing, which is basically the dream combo around here. We're pretty excited about the value he's already bringing to the team and the horsepower he adds to our day to day. Go team!

We are still looking for a few more people to join our roster for this upcoming season. We have full-time and seasonal positions available, so please holler if you know someone with a great work ethic and a mild-to-moderate obsession with combine parts!

And speaking of exciting things... we've got a **fun new Romafa sale** running from mid March to the end of April! You all loved Romafa's "8% for 8K" promo so much that we figured—why not bring you its little sibling? Introducing **Romafa's 1% for 1K!**

Spend \$1,000 and get 1% off—stack it all the way up to **10% off \$10,000**. A tiny deal with mighty potential.

You'll also spot a QR code in this edition of The Scoop. We've rounded up some inventory that's been squatting in our warehouse for far too long—great parts just waiting for someone to give them a good home. Discounts are already applied, so have a look and let us know if anything deserves a new life on your farm!

And the fun keeps rolling—literally—because we're now carrying a **new line of tires**! Say hello to **Forerunner**, a higher quality brand that's going to give you better value and better performance. Our previous tire brands? They're officially **priced to clear**, so if you love a good deal (and who doesn't?), now's the time to swoop in.

And if "priced to clear" makes your heart beat a little faster... guess what? There's **more**.

I've got equipment ready to roll at some pretty aggressive pricing—including a very nice, very red combine that was out on rental last harvest and is now cleaned up, tuned up, and ready to get back to work. If you've been thinking about adding something to your lineup, this might just be your sign!

We look forward to serving you this year—let's "combine" forces and make it an absolute beauty of a season. See what I did there?

Cheers!
